Wisconsin Student Assessment System

The Wisconsin Student Assessment System (WSAS) is a comprehensive statewide program designed to provide information about what students know in core academic areas and whether they can apply what they know. The Fall 2005 *Wisconsin Knowledge and Concepts Examinations—Criterion-Referenced Test* (WKCE-CRT) is customized to measure the Wisconsin Model Academic Standards and is developed and designed by CTB/McGraw-Hill. For students in Grades 6 through 8, the test includes multiple-choice and short-answer items in Reading and Mathematics. In addition, for Grade 8 students only, the test includes multiple-choice items in Language Arts, Science, and Social Studies, and two writing prompts.

TEST SECURITY

The Directions for Test Administration and the test books must be kept secure. Students must not be exposed to test content before the actual testing. If students have prior knowledge of test content, results of testing can give a deceptive picture. Please assume responsibility for maintaining strict security of these documents.

The Department of Public Instruction does not discriminate on the basis of sex, race, religion, age, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability.

ASSESSMENT GUIDELINES AND ACCOMMODATIONS

Message to Teachers

The Directions for Test Administration will help you administer the WKCE-CRT test in a uniform manner that is essential for the integrity of this testing program. Following the instructions exactly ensures similar testing conditions in all classrooms. Test directions must be read as written.

State and federal laws require that state assessments must allow for the inclusion of **all** students, including students with disabilities and English Language Learners, to the extent practicable. If you have students with disabilities, English Language Learners, and/or Section 504 students for whom the standardized testing procedures are not appropriate, please check the “Assessment Guidelines and Accommodations” section of this manual or Section 6 of the *WKCE Guide for District Assessment Coordinators and School Assessment Coordinators* (DAC Guide) for guidelines on allowable test accommodations. Also, if you have blind or visually impaired students who are taking the Braille or Large Print version of the test, check the DAC Guide for information on how to facilitate their testing. Students with disabilities and English Language Learners who do not participate in the statewide assessment must participate in an alternate assessment.

Mathematics, Language Arts, Science, and Social Studies questions, as well as the writing prompts, may be read aloud to students with an IEP or Section 504 plan that allows for such accommodation. Make sure these students are tested in a room separate from the regular classroom setting since the teacher’s reading aloud would be disruptive to the other students. Students for whom the questions and writing prompts are read aloud must all be given the same test book form. The test book form is indicated on the front cover of each test book. Questions in the Reading test must **not** be read aloud to any student since these questions test reading comprehension.

For Grades 6 and 7, there are three different test book forms per grade. For each grade, the three test book forms are packaged together in groups of five and twenty-five. For Grade 8, there are six different test book forms, which are packaged together in groups of ten. The forms should be distributed to the students in the order in which they are packaged. Each student should receive only one test book form. Always check to see that each student has his or her own test book form.

Given the variety of conditions at each school, it is not possible to provide one ideal test schedule that can be implemented in every setting. In planning your testing schedule, consider the facilities and daily schedules of your school, as well as the ability to conduct the testing in a manner that will encourage and allow for student success.

Important: In order to protect the integrity of the test, and to protect the school staff from any appearance of impropriety, you may **not** check or read the students’ answers after testing.

As we developed the WKCE-CRT, our mission was to create a standardized assessment instrument that would help teachers help students. The WKCE-CRT test provides useful, comprehensive information about student progress, and helps students understand where they are in relation to their academic goals. By following the guidelines in this manual, you can help ensure that the test will work validly and equitably for all students.

STEP**1**

Check Your Test Materials

Check to be sure you have the following materials.

If any materials are missing, contact the CTB Help Desk at 1(800) 282-2203.

FOR THE TEACHER

- ☐ Directions for Practice Activities
- ☐ Directions for Test Administration
- ☐ one form of a test book for your students' grade level
- ☐ "Do Not Disturb" sign

FOR EACH STUDENT

- ☐ Practice Activities
- ☐ test book
- ☐ punch-out tools
 - for each Grade 6 student—ruler (with U.S. customary and metric measurement), protractor, and one set of tangrams
 - for each Grade 7 and Grade 8 student—ruler (with U.S. customary and metric measurement) and protractor
- ☐ No. 2 pencil with eraser (no pens)
- ☐ extra eraser
- ☐ scratch paper
- ☐ calculator (Sessions 2, 3, 4, and Part B of Session 5)
 - Students must use at least a four-function calculator. Students may use a scientific or graphing calculator if they choose to and are familiar with the calculator. The use of graphing calculators is a district decision. If your district has decided to allow graphing calculators, it is imperative for security reasons that examiners follow the directions for clearing calculator memories at the beginning and at the end of each session for which calculators are allowed. The directions for clearing calculator memories are located on pages 36 through 38 of this manual. Calculators or other electronic devices that possess any of the following features are not permitted:
 - QWERTY keyboard
 - Devices that make noise or "talk"
 - Touchscreen, electronic writing pad, pen-input or stylus-driven entry systems
 - Removable memory units
 - Image capture or video recording or transmission
 - Sound recording or transmission
 - Wireless communication (infrared, Bluetooth®, WiFi®, cellular, radio, etc.)

Practice Activities

The Practice Activities are provided for Grades 6, 7, and 8. These will not be scored.

CALCULATORS

Students must use at least a four-function calculator.

Students are permitted to use a scientific calculator.

Each district must make the decision whether or not to allow the use of graphing calculators.

If graphing calculators are allowed, the calculator memories must be cleared before and after each session for which calculators are allowed, following the directions for clearing calculator memories. The directions are located on pages 36 through 38 of this manual.

Mathematics, Session 1 and Session 5 Part A measure computation skills. For that reason, use of calculators for those sections of the test is not allowed for any student, including students whose IEP or Section 504 plan allows for such accommodation.

Observe Test Security Guidelines

Test Security

The primary goal of WKCE-CRT test security is to protect the integrity of the examinations. To ensure that trends in achievement results can be calculated across years in order to provide longitudinal data, a certain number of test questions must be repeated from year to year. If any of these questions are made public, the validity of the test may be compromised. If the reliability or validity of a test is compromised, it may require the invalidation of the test scores of individuals or entire classes, as well as other disciplinary actions for wrongdoers. The best way to ensure test security is to limit access to tests to those educators who must have access and to ensure that all who have access understand the crucial need for test security. An outline of acceptable and unacceptable test preparation and administration practices for instructional and administrative staff has been prepared by the Wisconsin Department of Public Instruction (DPI).

Wisconsin Student Assessment Security Warning: This statement will appear on every test booklet beginning with the 2004–05 school year.

TEST SECURITY

All passages, stimuli, and questions used in the *Wisconsin Knowledge and Concepts Examinations—Criterion-Referenced Test* are CONFIDENTIAL and must be kept SECURE at all times. Unauthorized use, duplication or reproduction of ANY or ALL portions of the test material is prohibited. Violation of security can result in district disciplinary action, prosecution, and/or penalties by the Department of Public Instruction or CTB/McGraw-Hill.

What Is Meant by Test Security?

Tests developed and used in the WSAS statewide testing program are secure, proprietary test instruments published by CTB/McGraw-Hill under contract with DPI and copyrighted by DPI. The shelf portions of the language arts, science, and social studies assessment at Grades 4 and 8 are copyrighted by CTB/McGraw-Hill. Any disclosure or dissemination of actual test items to any person may be considered a copyright violation and may severely undermine the value of the test and adversely affect the validity of test results. The confidentiality of test questions and answers is paramount in maintaining the integrity and validity of the test. Therefore, the DPI staff and all Wisconsin educators must take every step possible to assure the security of test instruments.

Why Is Test Security Important?

Test security is important to:

- ☐ make valid inferences on student and school performances as required by state and federal law;
- ☐ maintain the integrity:
 - 1) of the assessment results;
 - 2) of the testing environment;
 - 3) of the assessment instrument;
- ☐ guard against limiting or narrowing the curriculum to only content covered on the test;
- ☐ give accurate measures of students' knowledge and skills;
- ☐ protect the significant financial investment necessary to develop the Wisconsin Student Assessment System; and
- ☐ maintain the opportunity for fairness among all districts.

Who Is Responsible for Test Security?

Everyone who works with the assessments, communicates test results to others, and/or receives testing information is responsible for test security. This includes:

- ☐ staff of the DPI
- ☐ District Administrators and both certified and non-certified public school staff
- ☐ District Assessment Coordinators (DACs)
- ☐ School Assessment Coordinators (SACs)
- ☐ students, parents, and the community at large
- ☐ staff at the Cooperative Educational Service Agencies (CESAs)

Pre-Test Security

All WKCE-CRT test materials must be kept secure. Do not photocopy or duplicate any portion of the test booklet at any time. Test booklets must be placed in a **locked** storage cabinet or area before and after all testing sessions. Test security is the responsibility of the entire school community.

District Assessment Coordinators should work closely with School Assessment Coordinators to direct the management of the WKCE-CRT. The first responsibility is to ensure test security throughout the testing process

not only to protect the integrity of the test, but also to protect principals and teachers from any appearance of impropriety. On a daily basis, DACs and SACs should make sure that all test materials are placed in a locked storage area when not in use during a testing session. They also must make sure that students do not share information about test content when the test is administered to same grade-level students at different times. If any deviation is noted, they should take immediate action to correct it. Depending on the severity of a deviation in security, it may be necessary to advise the DPI's Office of Educational Accountability.

What Are Some Examples of Test Security Violations?

Test security violations can be committed by educators, students, or others.

Some examples of test security violations by **educators** include, but are not limited to:

- ☐ leaving students unsupervised during testing;
- ☐ leaving test materials in an unsecured place;
- ☐ photocopying or keeping a personal copy of the test;
- ☐ taking notes about test questions and using them or a close paraphrase to prepare students for testing;
- ☐ offering “hints” that indicate an answer or help eliminate answer choices;
- ☐ rephrasing the test questions;
- ☐ editing (changing) student answers after completion of the test by erasing any wrong answers and writing in the correct ones;
- ☐ providing test accommodations for students with disabilities that are not included in the student's IEP or IAP;
- ☐ allowing students to go back to previous sections in the test booklet to check their work; and
- ☐ allowing students to go back to the current section in the test booklet to change their answers after allowed testing time has expired.

Some examples of test security violations by **students** include, but are not limited to:

- ☐ illegally obtaining a test booklet to study or to let others study;
- ☐ securing a marked test booklet or “crib sheet” from a teacher or another student;

- ☐ copying or “stealing” answers from another student during testing;
- ☐ sharing specific test information with other students in the same grade who are scheduled to take the same test at a later time; and
- ☐ taking a test during the make-up period and asking a student who has already completed the test to disclose test questions and/or answers.

Possible Consequences/Sanctions for Compromising Test Security

Administrators, certified and non-certified school staff, students, and parents must adhere to ethical procedures in testing. Violation of these procedures can be investigated and appropriate sanctions may be taken by the local school board, the DPI, and/or the court system.

In regard to professional staff licensed by DPI, the definition of “immoral conduct,” which is the predicate for suspension and revocation of licenses and includes “conduct or behavior that is contrary to commonly accepted moral *or ethical* standards,” is located in Section 115.31(2) Wis. Stats.

School or district staff members must immediately report all incidents of cheating or other test irregularities by students or staff to the District Assessment Coordinator and to the State Superintendent. The department, after notification of an infraction, will send a recommended outline complaint and investigation policy with suggested timelines. When a testing irregularity is alleged to have occurred, DPI will ask the school and district to conduct a thorough fact-finding investigation of the alleged irregularity and report the results of its investigation to the DPI as quickly as possible.

After receipt of the fact-finding report, DPI staff will consult with the district on the severity of the alleged testing irregularity, whether it was severe enough to affect test results, and at what level—student, school, or district. Since the validity and reliability of the examinations rest with the department, DPI will ultimately determine whether the irregularity should be declared a testing violation, whether the WKCE-CRT results should be invalidated, and at what level. Affected results may not be reported in the Wisconsin School Performance Report or used for other accountability measures. At the school and district levels, this could result in the loss of a year’s test results for the grade(s) and subject(s) affected by the test irregularity. There will be no opportunity to retest.

Test security violations may be reported by the school faculty, students, their parents or other family members, and persons in the community. They also can be detected by erasure analysis, unusual score gains, or other irregularities.

Potential sanctions for **educator** violations of security measures may include:

- ☐ suspension or acceptance of voluntary surrender of certificate of licensure;
- ☐ suspension without pay or a written reprimand;
- ☐ termination of contract, acceptance of resignation, or retirement;
- ☐ civil legal liability for copyright violations;
- ☐ legal prosecution;
- ☐ public embarrassment; and
- ☐ others as determined by local school boards.

Students who are found to have cheated on the WKCE-CRT will receive no results for the content area test in question. Disciplinary measures for students are handled at the school or district level. Disciplinary measures for educators and school staff will be determined at employment level based on local board policy. In extreme cases, DPI reserves the right to pursue its own sanctions as to department licensed individuals for school or district testing irregularities.

Potential sanctions for **student** violation of security measures may include:

- ☐ invalidation of test results;
- ☐ invalidation of specific test questions or subtests, or invalidation of pass/fail proficiency results;
- ☐ suspension or expulsion from school, or other disciplinary actions as specified by the local school board code of conduct;
- ☐ suspension or exclusion from participating in school extra-curricular activities such as sports, plays, school-sponsored social functions, etc., as dictated by local school board policies;
- ☐ denial of appointment to a school membership team such as mathematics or debate team;
- ☐ removal from an elected office such as president of the student council, etc., as dictated by local school board policies; and
- ☐ others as determined by local school boards.

Plan Your Testing Schedule

- ☐ Review the test and test directions in advance.
- ☐ To minimize security concerns, coordinate the schedule with the School Assessment Coordinator and teachers so that all students in a grade will take the same session of the test at the same time. It is suggested that you administer just one session per day so that testing can be assigned to single class periods.
- ☐ If student pre-ID labels are not used, allow enough time to complete the Student Information Page.
- ☐ Avoid testing on days just before or after vacations, important school functions, holidays, or weekends.
- ☐ Avoid testing just after students have had strenuous physical activity.
- ☐ Observe timing guidelines:
 - Do not begin a test session unless there is enough time to complete it. The time limit for each test session must be observed; however, if **all** students finish before the time limit, that test session may be concluded.
 - For each session, allow five to ten minutes for distributing materials and reading directions aloud.
- ☐ Schedule breaks to maintain an unhurried pace and a relaxed atmosphere. Be sensitive to students' fatigue level and attention span, and alter your schedule as necessary.

Administering each test session to all students at one time avoids the situation in which students who take a test session in the morning discuss it with students who will take the same test session at a different time.

Working with Proctors

Review your plans with proctors prior to testing.

Proctors can help you

- ☐ arrange the testing room
- ☐ fill in the Student Information Page (unless student pre-ID labels are used)
- ☐ prepare punch-out tools for distribution to the students by removing the punch-out tools from the sheets
- ☐ distribute test materials
- ☐ make sure students are working in the correct place and are marking only one answer for each item

As a general rule, one proctor for every 15 students is recommended.

If a student misses part or all of the test, arrange a make-up session.

TESTING STUDENTS WHO REQUIRE ACCOMMODATIONS

Be sure that plans are in place for students requiring special test accommodations. Please check the "Assessment Guidelines and Accommodations" section of this manual or Section 6 of the *WKCE Guide for District Assessment Coordinators* (DAC Guide) for guidelines on allowable test accommodations.

- ☐ prevent talking or sharing of answers
- ☐ collect materials at the end of the testing session
- ☐ supervise students during short breaks (Students requiring use of restroom facilities must be escorted by you or a proctor.)

Administering Make-Up Sessions

Every attempt should be made to administer make-up tests to absentees and to any student who missed one or more of the scheduled sessions. Scheduling of make-up sessions must be coordinated with the School Assessment Coordinator to eliminate conflicts and ensure that the students will be taking make-up tests under the same conditions as the other students.

- ☐ Before each make-up session, retrieve from the School Assessment Coordinator the test books for those students who need to make up that particular test session.
- ☐ For each make-up session, distribute and collect student test books and administer the test according to the appropriate instructions in this manual.
- ☐ Return test materials to the School Assessment Coordinator after each make-up session.

For students who are absent on the first day of testing and who are expected to take all or some of the test sessions when they return: Avoid delays during the first scheduled make-up session by completing the Student Information Page for the student test books (if labels are not used).

TESTING DATES

October 24 through
November 25, 2005.

Tests must be administered according to the specific directions. It is **not** permissible to change the order of the test sessions. It is suggested that the examiner administer just one session per day so that testing can be assigned to single class periods. An entire session must be administered in a single sitting.

The time limits are generous and allow most students time to finish.

For students who are absent on the first day of testing and who are expected to take all or some of the test sessions when they return: avoid delays during the first scheduled make-up session by applying the student pre-ID labels or completing the Student Information Page for the student test books.

STEP

4

Organize Your Classroom

- ☐ Plan for the distribution and collection of materials.
- ☐ Plan seating arrangements. Allow enough space between students to prevent sharing answers.
- ☐ Eliminate distractions such as bells or telephones.

- ☐ Use a “Do Not Disturb” sign on the door of the testing room.
- ☐ On the board, indicate starting and stopping times for each test session.

STEP

5

Prepare Your Students

- ☐ Inform students that they will not be allowed to bring into the testing area cell phones, camera phones, personal digital assistants (PDAs), any device with infrared or Bluetooth technology, or any other form of wireless communication. In addition, students will not be permitted to use any form of wireless communication during short breaks in the testing session.
- ☐ Emphasize that students using a graphing calculator must back up stored information to an alternate storage device before testing.
- ☐ Help students approach the testing in a relaxed, positive way.
- ☐ Explain that the purpose of taking an achievement test is to find out which skills have been mastered and which skills need further development.
- ☐ Point out that some items may be more difficult than others and some material may be new to students; they are not expected to know all the answers.
- ☐ Reassure students that they will be given ample time to do their best.
- ☐ Emphasize that the test requires no special preparation and that scores will not affect their grades.

Help students do their best by presenting the testing experience in a positive way.

STEP

6

Use Appropriate Testing Procedures

To ensure that test results are valid, reliable, and equitable, tests should be administered with the same directions and the same time limits.

COACHING

Be sure students understand the directions and how to mark and write answers. Assist them with test-taking mechanics, but be careful not to inadvertently give hints or clues that indicate an answer or help eliminate answer choices.

GUESSING

Encourage students to attempt all items. Tell them to read each question carefully and make their best attempt at answering. Be careful not to imply that they should guess randomly.

Following the instructions exactly ensures similar testing conditions in all classrooms. Test directions must be read as written.

STEP

7

Administer the Practice Activities

The Practice Activities give students experience in marking and writing answers, and introduce item formats that are included in the test. They should be given a day or two in advance of the actual testing. They will take about 40 minutes to complete. In addition to the 40 minutes, be sure to schedule enough time for pre-test preparation and administration. If additional practice seems necessary, repeat the Practice Activities.

STEP

8

Fill In the Student Information Page

The Student Information Page must be completed **only if you are not using student pre-ID labels**. Your district was provided student pre-ID labels; please use these labels even if they contain incorrect information. The opportunity to correct this information will be provided by updating WSLs and ISes or in the Record Editing System (RES). You should have received three labels per student. The left-hand label with NO barcode is for teacher use only. Apply the right-hand student pre-ID label to the front cover of the test book. Then apply the middle label to the back cover of the test book. If one of the two labels with barcodes is damaged or destroyed, make sure the remaining label is placed on the **front cover** of the test book; the student should then print his/her name on the back cover. Samples of the Student Information Page and a student pre-ID label can be found on pages 16 and 17 of this manual.

For Grades 6 and 7, there are three different test book forms per grade. For each grade, the three test book forms are packaged together in groups of five and twenty-five. For Grade 8, there are six different forms of the test book. The six forms are packaged together in groups of ten. For each grade, distribute the test book forms to the students in the order in which they are packaged. Each student should receive only one test book form.

If student pre-ID labels are not being used, ask students to print their names on the back covers of the test books. Then lead the students through the process of filling in the Student Information Page on the inside front cover of the test books, as follows.

To be completed by student or school/district staff:

1. **STUDENT'S NAME:** Print the Last Name, First Name, and Middle Initial in the spaces provided. If there are not enough spaces for each part of the name, print only as many letters as there are spaces.

Fill in the appropriate circle below each letter. If the letter space is blank, fill in the empty circle at the top of the column under that letter space.
2. **BIRTH DATE:** Write the birth date in the spaces provided. Fill in the appropriate circles in each column for the Month, Day, and Year of birth.

Use the board to show students how to fill in the data grid, e.g., write the teacher, school, and district names on the board for students to copy.

STUDENT PRE-ID LABELS

The labels in the left column of the label sheets are for teacher use only. The barcode labels are for the test book covers.

Proctors may help by filling in the Student Information Page.

If a birth day is a single digit, the “zero” circle in the left-hand column under “Day” should be filled in.

3. TEACHER, SCHOOL, DISTRICT: Print the teacher, school, and district names in the appropriate boxes.
4. Fill in the circle for Female or Male.
5. ETHNICITY: Fill in the racial/ethnic group that the student belongs to or identifies with.

To be filled in by teacher or test proctors based on information provided by school or district personnel with access to the relevant student records after completion of testing:

6. WI STUDENT NUMBER: Write the ten-digit Wisconsin Student Number (WSN) in the spaces provided. Fill in the appropriate circle below each digit. More information on WSNs can be found at this DPI website: <http://www.dpi.state.wi.us/dpi/dltcl/lbstat/eseadata.html>.
7. MOBILITY STATUS: If the student has NOT been enrolled in the district since the third Friday of September of 2004, fill in the circle for “No” on the DISTRICT line. If the student has NOT been enrolled in the school since the third Friday of September of 2004, fill in the circle for “No” on the SCHOOL line. “Yes” will be assumed unless “No” is marked.
8. LOCAL STUDENT I.D. (recommended): If your school district has chosen to assign Local Student I.D. numbers, write the number in the spaces provided. If the Local Student I.D. has fewer than ten digits, make sure the last digit of the number falls in the space farthest to the right. Write leading zeros in any remaining spaces. Fill in the appropriate circle below each digit.
9. OPTIONAL FIELD: Districts may use this local-use field for their own purposes, or they may leave it blank. The field is used to record additional information about students in the WKCE-CRT student data file. Among other examples of data that might be recorded in this field are the length of time a student has attended a particular school, the types of services the student has received, or the student’s homeroom teacher or guidance counselor.
10. TESTING STATUS: Testing status should be left blank for the vast majority of students (99%+). If a student is not expected to participate in WSAS Regular or Alternate Assessments, then mark the reason for nonparticipation.

P = student is excused by parent or guardian from participating in WKCE only at Grades 4, 8, and 10.

F = special status H student (see next page) whose 504 Plan indicates that the student should not take WSAS tests (rare). *This code is not valid for special status “D” students.*

IMPORTANT

You may contact the District Assessment Coordinator or the DPI for further clarification of a student’s status.

Note that students will be coded as “T” (expected to participate in all content areas covered by WSAS) unless coded as “P” or “F.” Participation in WSAS Regular Assessments *or* WSAS Alternate Assessments counts as participation in WSAS. See Step 10 on page 52 of this manual for directions about recording the results of WSAS Alternate Assessments.

11. SPECIAL STATUS: To protect students’ privacy, fill in the following sensitive demographic data after testing, just before test materials are sent to CTB. The status codes are defined below. Please read the definitions carefully. Be sure to mark all codes that apply for each student. **Important:** If no special codes are marked, the student’s special status will be recorded as “none.”

D = student with a **disability**. A “student with a disability” (SwD, formerly known as EEN) is a student who is considered eligible for the federal child count as reported by the district to the DPI on the IDEA Federal Student December 1 Data Report (PI-2197). This includes any student who was reported by the district as eligible on PI-2197 or who has been identified as eligible since December 1, unless the student has exited the district’s special education program. Status as a “student with a disability” is based on the student’s status as of the date the student is tested.

H = student who has a **physical or mental impairment** covered by Section 504 of the Vocational Rehabilitation Act.

U = **long-term U.S.** student indicator. Beginning in grade 1, a student who has attended school in the United States for at least five consecutive years is considered to be a long-term U.S. student. This data element is required of ELL students with English Proficiency status codes 1 and 2. Students who have attended school in the U.S. for 3 consecutive years, beginning with grade 1, must be assessed in Reading and Language Arts regardless of their individual level of English language proficiency (using tests written in English). The exception is that districts may determine, once a year on a case-by-case basis, that a particular student’s knowledge and ability can be more validly and reliably measured by assessing the respective student in the appropriate language other than English for a period that does not exceed two additional consecutive years. For a more complete definition see: No Child Left Behind Act of 2001 Title I sec. 1111(b)(3)(C)(x). The student’s English language proficiency level (also known as English language proficiency status code) is collected in section 1 of the Student Assessment Report (see Step 10 on page 52).

M = **migrant** student. A “migrant student” is any student who is, or whose parent/guardian is, a migratory fisher, a dairy worker, or an agricultural worker, AND who in the preceding 36 months has moved

from one school district to another in order for the worker to obtain temporary or seasonal employment in agricultural or fishing work.

Z = student who is **economically disadvantaged**. An “economically disadvantaged” student is a member of a household that meets the income eligibility guidelines for free or reduced-price lunch ($\leq 185\%$ of Federal Poverty Guidelines) under the National School Lunch Program. Districts are permitted to use their best local source of information about the economic status of individual students that is consistent with the DPI definition above. In the absence of reliable subsidized-lunch eligibility data, districts might want to consider using available county data, scholarship information, post-secondary options information, etc.

12. FOR SPECIAL STATUS “D” STUDENTS RESIDING OUTSIDE OF YOUR SCHOOL DISTRICT ONLY: This section must be completed only for a student with a disability (SwD) who resides outside of your school district. If the student does not attend school in your district under Open Enrollment or Chapter 220, fill in the circle for “No.” “Yes” will be assumed unless “No” is marked. If “No,” the test book requires special processing because the district of residence will be held accountable for the performance and progress of this student. In order for the student’s data to be accurately processed, CTB needs you to provide the following information about this student on the Student Information Page.

District of Residence: Provide the four-digit number assigned by DPI for the district of residence. Residence is based on where the student typically sleeps at night. For students with disabilities who reside in another state, use the code 9999. The code for the “District of Residence” is generally the same as the “Public Agency of Responsibility” number as reported for the student on the IDEA Federal Student December 1 Data Report (PI-2197).

13. SIGNIFICANT MEDICAL EMERGENCY: Fill in the circle if the student had a significant medical emergency that resulted in exemption from WKCE-CRT testing. A significant medical emergency is a significant health impairment that renders the student incapable of participating in any academic activities, including state assessments, **for the entire testing window**. School districts may request students with a significant medical emergency be exempted from the test participation calculation through the reconsideration process. Districts will need written documentation from a physician of the medical emergency, including evidence that the condition will prevent the student from participation in any academic activities, including tests, for the entire testing window. Examples might include hospitalization for a life-threatening condition or a serious accident involving extensive rehabilitation. “No” will be assumed unless “Yes” is marked.

For students without pre-ID labels, student-identifying information must be completed correctly for accurate reporting.

For students without pre-ID labels, be sure to fill in circles for each student's birth date.

Student Pre-ID Label

NOTE: “ELP” is a new acronym meaning “English language proficiency.” Every student has an ELP status of 1, 2, 3, 4, 5, 6, or 7. Students who have an ELP status of 1 or 2 are required to take Alternate Assessments.

Data from the Wisconsin Student Locator System (WSLS) and the Individual Student Enrollment System (ISES) were used to create student demographic pre-ID labels for all students enrolled in Grades 3-8 and 10. The initial shipment of pre-ID labels should arrive at the beginning of the testing window. A second shipment of labels, for students who are new to Wisconsin Public Schools after October 1, should arrive in districts by the end of the testing window. It is critical for reporting and accountability that districts use these labels. Unlike prior years, “bubbling” all test books for the school or district should not be considered a viable option. Bubbling will only be necessary in very rare cases when a label is not available for a new student. WSLS and ISES records may not be completely updated in your district; therefore, you may see data that are inaccurate on the pre-ID label. However, if you can determine that the label is for a student who should be tested on WSAS, you should still use the label. Corrections and updates must be made to your district’s records in the WSLS and ISES databases. Contact your local WSLS/ISES administrator to make changes.

If a student transfers out of your district after labels have been shipped, you should send that student’s demographic pre-ID label along with other confidential records. The receiving district should still use this label even though it appears to have inaccurate school and district information on it.

Corrections and updates to the WSLS and ISES databases can be made through at least mid-November. Once these data are “locked” in early December, DPI will send a new student demographic data file to CTB and all updates made in WSLS and ISES will be incorporated into the student WSAS data during the scoring process. Accurate reporting and accountability determinations depend on the integrity of these data. Please work with your district WSLS/ISES administrator to make changes in a complete and timely manner.

DPI may have created labels for some students who are not in a tested grade. These labels should be destroyed, not placed on a test book.

For more information on student pre-ID labels, use URL: <http://www.dpi.state.wi.us/oea/wsasdata.html>.

During Testing

SUGGESTIONS FROM TEACHERS ABOUT ADMINISTERING TESTS:

"I always point to the first question in each session so students know where to begin."

"I move a paper clip along the page with each 'SAY' to help keep my place."

STEP

9

Administer the WKCE-CRT Test

Specific directions for the test begin on page 19. Be sure to review the test and test directions in advance.

The following elements are used throughout the specific directions:

Information that is only for you and is not to be read aloud is printed in this type style.

SAY

The directions you are to read aloud to the students are preceded by **SAY** and are printed in bold type.

This symbol accompanies anything concerning the timing of the test.

This symbol indicates places where you may want to use a test book to show sample questions or to make sure students have turned to the correct page.

This symbol indicates sessions in which calculators are required.

This symbol indicates sessions in which calculators may not be used by any student, including students whose IEP or Section 504 plan allows for such accommodation.

- ☐ Before administering the test, take a moment to have your students look through the test book. Point out the various locations of the STOP signs within the test. Tell the students that whenever they see one of these STOP signs, they should stop and wait quietly until they are told what to do next.
- ☐ Be very careful to check that students do not skip or overlook any of the test questions. Remind students to look for and answer every question on each page.
- ☐ Remind students that they must mark and write answers **ONLY** in the spaces provided in the test book. Pencil marks in the margins will delay processing of the test books.

These directions can be used for Grades 6, 7, and 8.

Directions for Administering the Reading Test

Make sure each student has his or her own test book, a No. 2 pencil, an extra eraser, and scratch paper.

SAY Please open your test book to Page 1 of the Reading test. Make sure it says "Reading Session 1" at the top of the page.

Demonstrate. Check to be sure that all students are in the correct place in their test books.

SAY In this test, you will mark your answers in the test book. Use only a No. 2 pencil.

In Session 1, you will be answering multiple-choice questions and short-answer questions. Multiple-choice questions are questions that ask you to choose the best answer. For the multiple-choice questions, you must fill in the circle completely and make your mark heavy and dark. If you want to change an answer, completely erase the mark you made before making a new mark. You must fill in only one circle for each multiple-choice question.

Short-answer questions are questions that require you to write your answer instead of filling in a circle. Write your answer on the lines and/or in the space provided in your test book. Answers or parts of answers written outside the boxed area will not be scored. You may use scratch paper to help you plan your answer, but remember to write your answer in the boxed area in your test book. After you have written your answer, be sure to read it to make sure you have expressed your ideas clearly and completely.

For both the multiple-choice questions and the short-answer questions, remember to refer back to the reading passages to help you answer the questions. Some questions in this session may refer to two reading passages. Be sure to look back at both reading passages to help you answer these questions.

We will begin by doing a sample question.

☐ SAMPLE A

SAY Read the Directions and the Sample Passage on Page 1 of your test book. Then do Sample A. Stop when you have finished Sample A.

*Give students time to answer Sample A.
Do not read the sample aloud.*

Discuss Sample A with the students after they have had time to complete it. The correct answer for Sample A is the third choice.

It may be helpful to hold up a folded test book so that students can be sure they are on the correct page.

Following the instructions exactly ensures similar testing conditions in all classrooms. Test directions should be read as written.

Be sure students use a No. 2 pencil.

It is suggested that the examiner administer just one session per day so that testing can be assigned to single class periods.

Directions Read the passage. Then do Sample A.

Sample Passage

Changing names is nothing new. As a writer, Samuel Clemens called himself Mark Twain. Harry Houdini, the famous nineteenth-century escape artist, was born Ehrich Weiss in his native Hungary. The well-known comedian Whoopi Goldberg, who has also starred in television shows and movies, was originally named Caryn Johnson.

Sample A This passage is mostly about people who

- ☐ were famous movie stars
- ☐ were interested in the origin of names
- ☐ changed their names
- ☐ immigrated to another country

SESSION 1 40 minutes

SAY Now you will do Session 1 of the Reading test.

Remember to read all of the directions and information in the test book. Be sure to refer back to the reading passages to help you choose the best answers to the questions. When you come to the word "STOP" at the bottom of the page, you have finished Session 1.

You may go back over Session 1 and check your answers, but do not go on to Session 2 or to any other part of the test book. When you have finished, sit quietly until everyone else has finished.

Are there any questions?

When you are sure that all students understand the directions, continue.

Collect all test materials. Discard all used scratch paper. Make sure all test books are placed in a secure location until the beginning of the next testing session.

SESSION 2 40 minutes

Make sure each student has his or her own test book, a No. 2 pencil, an extra eraser, and scratch paper.

SAY Open your test book to the page labeled “Reading Session 2.”

Demonstrate. Please note that, although testing times for each session across the forms are identical, each session may start on different pages of the test book. Therefore, do not identify page numbers to the students. Instead, check to be sure that all students are on the page with the correct session header.

SAY In Session 2, you will be answering multiple-choice questions and short-answer questions. Multiple-choice questions are questions that ask you to choose the best answer. Remember that for the multiple-choice questions, you must fill in the circle completely and make your mark heavy and dark. Make sure each student has his or her own test book, a No. 2 pencil, an extra eraser, and scratch paper.

SAY Open your test book to the page labeled "Reading Session 4."

Demonstrate. Check to be sure that students are in the correct place in their test books.

Be sure students do not write in the test book margins. Pencil marks in the margins will delay processing of the test book.

At the end of the testing session, have students check to see that they have no extraneous material—pencils, scratch paper, bookmarks, etc.—inside their test books.

SAY In Session 4, you will be answering multiple-choice questions and short-answer questions. Multiple-choice questions are questions that ask you to choose the best answer. Remember that for the multiple-choice questions you must fill in the circle completely and make your mark heavy and dark. If you want to change an answer, completely erase the mark you made before making a new mark. You must fill in only one circle for each multiple-choice question.

Directions for Administering the Mathematics Test

*Make sure each student has his or her own test book, punch-out tools, a No. 2 pencil, an extra eraser, and scratch paper. **THE PUNCH-OUT TOOLS AND SCRATCH PAPER SHOULD NOT BE RETURNED WITH THE TESTING MATERIALS.***

Students may not use calculators to solve the problems in Session 1.

If punch-out tools have not been removed from the sheets, instruct students to do so at this time.

SAY Please open your test book to Page 1 of the Mathematics test. Make sure it says “Mathematics Session 1” at the top of the page.

Demonstrate. Check to be sure that all students are in the correct place in their test books.

SAY Remember to use only a No. 2 pencil in this test.

Please look at the no calculator symbol at the bottom of the page. This symbol means you may not use a calculator to help solve problems in this session of the test.

In Session 1, you will be answering multiple-choice questions and short-answer questions. Multiple-choice questions are questions that ask you to choose the best answer. For the multiple-choice questions, you must fill in the circle completely and make your mark heavy and dark. If you want to change an answer, completely erase the mark you made before making a new mark. You must fill in only one circle for each multiple-choice question.

You may use scratch paper to work the multiple-choice questions, but remember to fill in the circle that goes with the answer you choose. Some problems may require you to simplify your answer or reduce it to lowest terms.

Short-answer questions are questions that require you to write your answer instead of filling in a circle. Each short-answer question has a Step A and a Step B. Write your answers within the boxed area only, on the lines and/or in the space provided. Be sure to answer the question completely to show you clearly understand the question. Do not write outside the boxed area. The boxed area is your answer space. Only what you write in the answer space will be scored. You do not need to use the entire answer space.

IMPORTANT: Distribute scratch paper and punch-out tools along with test books.

It may be helpful to hold up a folded test book so that students can be sure they are on the correct page.

Following the instructions exactly ensures similar testing conditions in all classrooms. Test directions should be read as written.

Be sure students use a No. 2 pencil.

SAY For the short-answer questions, if you are asked to complete or draw a chart or diagram, please do not use shading in your response. Shaded areas cannot be scored. Instead of shading, leave the outlined space plain or fill it in with parallel or crossed lines.

Demonstrate by drawing the illustration below on the board.

SAY If you need to erase, make sure you erase completely. Not erasing completely can result in scoring errors.

Are there any questions?

When you are sure that all students understand the directions, continue.

SAY We will begin by doing some sample questions.

☐ SAMPLES A AND B

SAY Do Samples A and B, beginning on Page 1. You will need to use your ruler to help you solve Sample B. Stop when you have finished the samples.

*Give students time to answer Samples A and B.
Do not read the samples aloud.*

Discuss Samples A and B with the students after they have had time to complete them. The correct answer for Sample A is the third choice, and the correct answer for Sample B is the first choice.

Directions

Work Sample A. Then work Sample B on Page 2.

Sample A

This graph shows the profits of the snack bar at a movie theater for the months of January through May. Based on the graph, which of these statements is true?

- ☐ There were fewer movies shown in April than in May.
- ☐ The snack bar made less money in February than in May.
- ☐ The snack bar made more money in March than in January.
- ☐ More people attended the theater in February than in April.

Sample B

Use the inch side of your ruler to help you solve this problem.

- ☐ 125 feet
- ☐ 137.5 feet
- ☐ 150 feet
- ☐ 162.5 feet

SESSION 1 30 minutes

SAY Now you will do Session 1 of the Mathematics test.

Remember to read all of the directions and information in the test book. When you come to the word “STOP” at the bottom of the page, you have finished Session 1.

You may go back over Session 1 and check your answers, but do not go back to the Reading test or on to Session 2 of the Mathematics test or to any other part of the test book. When you have finished, sit quietly until everyone else has finished.

You will have 30 minutes to do Session 1. Make sure you stop at the end of Session 1.

Collect all test materials. Discard all used scratch paper. Make sure all test books are placed in a secure location until the beginning of the next testing session.

SESSION 2 35 minutes

Students may use calculators to solve the problems in Session 2.

Make sure each student has his or her own test book, punch-out tools, a No. 2 pencil, an extra eraser, scratch paper, and a calculator.

FOR SECURITY REASONS, CALCULATOR MEMORIES MUST BE CLEARED IMMEDIATELY PRIOR TO AND AT THE COMPLETION OF EACH SESSION FOR WHICH CALCULATORS ARE ALLOWED. Directions for clearing memory are included on pages 36 through 38 of this manual.

Students whose district permits use of a graphing calculator for the Mathematics test must back up stored information to an alternative storage device before each session for which calculators are allowed. If any students refuse to clear their graphing calculator's memory, they may not use their graphing calculator; they must use a different calculator. Schools should have some spare calculators available at the testing site for student use.

It is the responsibility of each examiner to confirm that, in every case, this procedure has been followed. It is recommended that examiners collect calculators and clear memories prior to and following the test session. However, each school or examiner may determine how best to accomplish the task of clearing calculator memories. Follow the instructions on pages 36 through 38 for clearing memory of different calculator brands and models.

SAY

Open your test book to the page labeled "Mathematics Session 2." You may use a calculator to help solve problems in this session of the test.

Demonstrate. Please note that, although testing times for each session across the forms are identical, each session may start on different pages of the test book. Therefore, do not identify page numbers to the students. Instead, check to be sure that all students are on the page with the correct session header.

SAY

In Session 2, you will be answering multiple-choice questions and short-answer questions. Multiple-choice questions are questions that ask you to choose the best answer. Remember that for the multiple-choice questions, you must fill in the circle completely and make your mark heavy and dark. If you want to change an answer, completely erase the mark you made before making a new mark. You must fill in only one circle for each multiple-choice question.

Short-answer questions are questions that require you to write your answer instead of filling in a circle. Each short-answer question has a Step A and a Step B. Write your answers within the boxed area only, on the lines and/or in the space provided. Be sure to answer the question completely to show you clearly understand the question. Writing "I used my calculator" is not a sufficient response. Do not write outside the boxed area. The boxed area is your answer space. Only what you write in the answer space will be scored. You do not need to use the entire answer space.

Remember that for the short-answer questions, you must not use shading in your responses. If you need to erase, make sure you erase completely.

You will have 35 minutes to do Session 2. Work until you come to the word "STOP" at the bottom of the page. You may go back over Session 2 to check your answers, but do not go back to Session 1 or on to Session 3 or to any other part of the test book. When you have finished, sit quietly until everyone else has finished.

Although testing times for each session across the forms are identical, each session may start on different pages of the test book. Therefore, do not identify page numbers to the students. Instead, check to be sure that all students are on the page with the correct session header.

Be sure students do not write in the test book margins. Pencil marks in the margins will delay processing of the test book.

It is imperative that examiners make sure all calculator memories have been cleared. Examiners may either collect the calculators and carry out or supervise this procedure, or they may request students clear their own calculator memories, following the directions on pages 36 through 38 of this manual. If calculator memories are cleared by the students, the examiners must check to make sure each calculator memory has been cleared.

Collect all test materials. Discard all used scratch paper. Make sure all test books are placed in a secure location until the beginning of the next testing session.

SESSION 3

35 minutes

Students may use calculators to solve the problems in Session 3.

FOR SECURITY REASONS, CALCULATOR MEMORIES MUST BE CLEARED IMMEDIATELY PRIOR TO AND AT THE COMPLETION OF EACH SESSION FOR WHICH CALCULATORS ARE ALLOWED. *Directions for clearing memory are included on pages 36 through 38 of this manual.*

Make sure each student has his or her own test book, punch-out tools, a No. 2 pencil, an extra eraser, scratch paper, and a calculator.

SAY Now you will complete Session 3 of the Mathematics test. You may use a calculator to help solve problems in this session of the test.

Open your test book to the page labeled "Mathematics Session 3."

Demonstrate. Check to be sure that all students are in the correct place in their test books.

SAY In Session 3, you will be answering multiple-choice questions and short-answer questions. Multiple-choice questions are questions that ask you to choose the best answer. Remember that for the multiple-choice questions, you must fill in the circle completely and make your mark heavy and dark. If you want to change an answer, completely erase the mark you made before making a new mark. You must fill in only one circle for each multiple-choice question.

Short-answer questions are questions that require you to write your answer instead of filling in a circle. Each short-answer question has a Step A and a Step B. Write your answers within the boxed area only, on the lines and/or in the space provided. Be sure to answer the question completely to show you clearly understand the question. Writing “I used my calculator” is not a sufficient response. Do not write outside the boxed area. The boxed area is your answer space. Only what you write in the answer space will be scored. You do not need to use the entire answer space.

Remember that for the short-answer questions, you must not use shading in your responses. If you need to erase, make sure you erase completely.

You will have 35 minutes to do Session 3. Work until you come to the word “STOP” at the bottom of the page. You may go back over Session 3 and check your answers, but do not go back to Session 2 or on to Session 4 or to any other part of the test book. When you have finished, sit quietly until everyone else has finished.

Are there any questions?

When you are sure that all students understand the directions, continue.

Directions for Clearing Stored Memory from Calculators

Below are general directions for clearing the memory of some of the common graphing calculators. It is important that the memory of each calculator be cleared, and that this is verified by the examiner at the beginning and at the end of each session for which calculators are allowed.

Texas Instruments (TI)

OPTION A

Press the following keys to clear the memory from each model of TI calculator.

- TI-73 and TI-73 Explorer: Press [ON], [2nd], [MEM], [7], [1], [2], verify*
- TI-80: Press [ON], [2nd], [MEM], [3], [2], verify*
- TI-81: Press [ON], [2nd], [RESET], [2], verify*
- TI-82: Press [ON], [2nd], [MEM], [3], [2], verify*
- TI-83: Press [ON], [2nd], [MEM], [5], [1], [2], verify*
- TI-83+ and TI-84+: Press [ON], [2nd], [MEM], [7], toggle right (right arrow key) **twice** to "ALL," press [1], [2], verify*
- TI-85: Press [ON], [2nd], [MEM], [F3], [F1], [F4], verify*
- TI-86: Press [ON], [2nd], [MEM], [F3], [F1], [F4], verify*
- TI-89 and TI-89 Titanium: Press [ON], [2nd], [MEM], [F1], select "All Memory," press [ENTER], [ENTER]. The only verification that memory is cleared from the TI-89 is that the screen will now display the home page.

OPTION B

(requires a small Phillips™ screwdriver) The following will clear the memory from any of the above-mentioned TI models.

1. Remove **ALL** batteries from calculator, including back-up lithium batteries. Use the screwdriver to remove the brace from the lithium battery.
2. Wait 5 minutes before replacing batteries (if batteries are fresh, this may take longer than 5 minutes).
3. Turn calculator [ON].

4. Verify* that memory has been cleared.

*Verification: Please note that resetting the calculator may adjust the contrast on the screen and cause the screen to appear dark or blank. To check cleared memory, adjust the contrast by pressing [2nd] and the up or down toggle keys (arrow keys) alternately several times to bring the contrast back up. Screen must display “Mem cleared” or “RAM cleared.” If it does not, repeat the procedure.

CASIO

The following instructions will clear the memory from the FX7400G, FX7400G+, and Algebra FX2.0. (A paper clip is required.)

1. Turn calculator [ON].
2. Each calculator has a one-touch reset button located on the back of the calculator.
3. Press the reset button with the tip of a paper clip.
4. Screen will display “Reset all memory? [YES] [NO].”
5. Select [YES].
6. Verify that screen displays “Reset all Memory.” If screen is blank or dark, adjust contrast (press [MENU], [CONT], [EXE], toggle down—down arrow key—to CONTRAST, use right and/or left arrow key to adjust contrast).

The following instructions will clear the memory of the CFX-9970G.

1. Highlight the SYS icon on the main menu and then press [EXE].
2. Use the toggle down (down arrow) to highlight “RESET” on the screen, then press [EXE].
3. Press [F1] to reset the calculator.
4. Confirm that screen reads “MEMORY CLEARED!” and press [MENU] to resume calculator operation.

HEWLETT PACKARD (HP)

The following instructions will clear the memory from the HP-49G.

1. Turn calculator [ON].
2. Simultaneously press the keys in the LOWER LEFT, UPPER LEFT, and UPPER RIGHT corners.
3. Screen will go blank momentarily.
4. Screen will display “Try to recover memory? [YES] [NO].”
5. Select [NO].
6. Verify that screen then displays “Memory clear.”

SHARP

The following instructions will clear the memory from the EL-9400, EL-9450, EL-9600, EL-9600c, EL-9650, and EL-9900.

1. Press [2nd F] [Option] [E] to enter RESET mode.
2. Select "2. ALL MEMORY" to delete all data.
3. Screen will display text verifying reset of data.

or

1. Turn calculator off.
2. Press reset switch on back (may require a paper clip and/or removal of battery cover).
3. View screen and press [CL] to confirm reset of calculator data, if prompted.

These directions are for Grade 8 only.

Directions for Administering the Language Arts Test

Make sure each student has his or her own test book, a No. 2 pencil, and an extra eraser.

SAY Please open your test book to Page 1 of the Language Arts test. Make sure it says "Language Arts" at the top of the page.

Demonstrate. Check to be sure that all students are in the correct place in their test books.

SAY We will begin by doing some sample questions.

For each sample, fill in only the circle that goes with the answer you choose. Be sure to fill in the circle completely and make your mark heavy and dark. If you want to change an answer, completely erase the mark you made before making a new mark.

☐ SAMPLES A AND B

SAY Read the directions and do Samples A and B on Page 1. Stop when you have finished Samples A and B.

*Give students time to answer Samples A and B.
Do not read the samples aloud*

Discuss Samples A and B with the students. The correct answer for Sample A is the second choice, and the correct answer for Sample B is the first choice.

It may be helpful to hold up a folded test book so that students can be sure they are on the correct page.

Following the instructions exactly ensures similar testing conditions in all classrooms. Test directions should be read as written.

Be sure students use a No. 2 pencil.

Directions

Here is a paragraph a student wrote. There are some mistakes that need correcting.

¹ Last summer we went on a trip. ² Have you ever
 spent your summer vacation in the city? ³ Searching for
 a nice lake in the woods. ⁴ After a long drive, we finally
 arrived at the perfect spot. ⁵ We put up the tent and
 then spent a whole week swimming, fishing, and hiking.
⁶ We even went kayaking. ⁷ That vacation was the
 best ever!

Sample A

Choose the best way to write Sentence 3.

- ☐ Us searching for a nice lake in the woods.
- ☐ We were searching for a nice lake in the woods.
- ☐ Having searched for a nice lake in the woods.
- ☐ Best as it is

STEP 10

Fill In the Student Assessment Report (back cover of the test book)

The Student Assessment Report on the back cover must be completed for all students after testing whether or not the student has a student pre-ID label. Before beginning, make sure a student pre-ID label has been applied to the back cover of the test book (or that the student name has been printed on the line if student pre-ID labels were not used). For protocols and rubrics to be used for Alternate Assessments, see <http://www.dpi.state.wi.us/oea/assessmt.html>.

To be provided by school or district personnel with access to the relevant student records after completion of testing:

1. English Language Proficiency Status (Section 1)

In section 1, fill in the circle that indicates the student's English Language Proficiency (ELP) status code **only if there is not a student pre-ID label affixed to the front cover of the test book**. If there is a student pre-ID label affixed to the front cover, then leave section 1 blank. A DPI-approved assessment instrument must be used to determine the appropriate code (1–5) if the student is an English Language Learner (ELL). Code 6 is “Formerly ELL/Now Fully English Proficient.” Code 7 is “Never ELL/Fully English Proficient.” Code 7 will be assumed if this section is left blank and there is no label. See <http://www.dpi.state.wi.us/oea/ells.html> for descriptions associated with each code.

2. WSAS Alternate Assessments–Pre-Requisite English (Section 2)

In section 2, fill in the appropriate circle or circles **only if the student is an ELL student and participated in the WSAS Alternate Assessments**. If an ELL student has an English Language Proficiency (ELP) status code of 1 or 2, that student **must** participate in **all** WSAS Alternate Assessments; fill in the appropriate circle under each of the subject areas listed. If an ELL student has an English Language Proficiency status code of 3, 4, or 5, that student **must** participate in **all** regular assessments (WKCE-CRT and WSAS Alternate Assessments), but **may also** participate in Alternate Assessments in the same subject areas; fill in the appropriate circle only for those subject areas assessed through Alternate Assessment. Please note that WAA-ELL proficiency levels in **all** content areas may be based on assessments given in a language other than English.

3. **WSAS Alternate Assessments–Pre-Requisite Skill (Section 3)**

In section 3, fill in the appropriate circle or circles **only if the student is a student with a disability who is not expected to take one or more regular assessments based on the student's IEP, and the student participated in WSAS Alternate Assessments (WAA)**. If a student with a disability took a WSAS Regular Assessment (i.e., WKCE-CRT or WSAS Alternate Assessment) in a subject area, then leave the circles under that subject area blank.

4. **WKCE-CRT Assessment–English Language Learner (Section 4)**

In section 4, for the ELL student who is participating in the **WKCE-CRT assessment**, fill in the appropriate circle(s) for each accommodation provided during testing.

5. **WKCE-CRT Assessment–Students with Disabilities (Section 5)**

For the student with a disability who is participating in the **WKCE-CRT assessment**, fill in the appropriate circle(s) for each accommodation provided during testing.

Student Assessment Report

PLACE STUDENT LABEL HERE OR WRITE STUDENT NAME ON LINE.

This page is to be completed after WKCE-CRT testing.
WSAS at Grades 3 through 8 and 10 includes both regular assessments and alternate assessments (WSAS Alternate Assessments—Pre-Requisite English and WSAS Alternate Assessments—Pre-Requisite Skill). Record Alternate Assessment results for this student, as appropriate, on this page by filling in the appropriate circles. Summary reports about your school will be based on WKCE-CRT scores and the results recorded below.

1	English Language Proficiency Status All Students at Grades 3 through 8 and 10							
	Directions: Complete section 1 for all students without pre-ID labels. Record the English Language Proficiency (ELP) status code for the student by filling in the appropriate circle. Code 7 will be assumed if this section is left blank.

5	WKCE-CRT Accommodations for Students with Disabilities							
	Directions: Complete section 5 for Students with Disabilities (SwD) who participated in WKCE-CRT with one or more of the following accommodations. Fill in all that apply.							
	(H) simplify language in directions (I) read questions and content to student (J) sign questions and content to student				(K) use text-talker converter (L) provide extra time for any timed test (M) allow more breaks that result in extra time for any timed test			

Assemble Test Materials for Return

After your testing is complete, check students' test books for the following:

- ☐ all information on the Student Information Page is accurate and complete (if labels are not used)
- ☐ student, school, and district names are provided on the back cover of the test book
- ☐ all stray pencil marks are erased
- ☐ all erasures are complete
- ☐ all test books are accounted for and returned to the School Assessment Coordinator immediately. **The number of used and unused test books returned to the School Test Coordinator must exactly match the number of test books given to you at the start of testing.**

NOTE: CHECK TO SEE THAT THE PUNCH-OUT TOOLS ARE NOT IN THE TEST BOOKS. DO NOT RETURN SCRATCH PAPER OR THE PUNCH-OUT TOOLS.

Marking Tests Invalid

Every effort must be made to administer all assigned content area tests in the WKCE-CRT to all students. For those students who have missed taking the WKCE-CRT content area tests, you must provide additional opportunities during the testing window (October 24–November 25, 2005) for students to take any or all of the content area tests administered during their absence. Remember, once the state-designated testing window closes, all testing ends.

A test may be marked invalid if, during the testing session, the student is removed from the test administration site for reasons including, but not limited to, disturbed behavior, health-related issues, etc.

To invalidate a Reading, Mathematics, Language Arts, Science, or Social Studies test, fill in all circles for Questions 1 through 5 for the respective content area(s).

To invalidate a Writing Assessment for Grade 8, fill in the diamond labeled “For Teacher Use Only” located in the lower left-hand corner of the Student Information Page. Then fill in the circle indicating the session that is invalid.

Students whose tests are invalidated count as not-tested students for accountability purposes; therefore, invalid tests may adversely impact the federal accountability requirement of 95% participation rate for a school and district.

Return all test materials to your School Assessment Coordinator.

Before assembling materials, check to see that there are no extraneous material—pencils, scratch paper, punch-out tools, etc.—inside the test books.

Assessment Guidelines and Accommodations

Assessment Guidelines and Accommodations		All Students	Students with Disabilities/504	English Language Learner
IV. Setting:				
1.	Provide distraction-free space or an alternative location for the student (e.g., study carrel, front of classroom, near teacher).	•	•	•
2.	Take the test with a small group or different class.	•	•	•
3.	Take the test at home or in a care facility (e.g., hospital), with district supervision.	•	•	•
4.	Use adaptive furniture.	•	•	•
5.	Use special lighting and/or acoustics.	•	•	•
6.	Place the student in the room or part of the room where he/she is most comfortable.	•	•	•
7.	Provide for an individual and supervised test administration.	•	•	•
8.	Allow the student freedom to move, stand, or pace during an individualized administration of the test.		•	
VI. Timing/Scheduling:				
1.	Timing of the test *** a. Each section of every test has a specific time allotment to complete the test. A person administering the test may provide a break or multiple breaks as long as the time allotted for students to take the test is provided. Example: The time allotment for a section of a test is one hour. Instead of scheduling the test from 9:00 a.m. to 10:00 a.m., the test administrator may schedule it from 9:00 a.m. to 10:15 a.m. and provide a 15-minute break. The students were given the time allotted to take the test—one hour—and were given a 15-minute break.	•	•	•
2.	Scheduling a. Each tested subject is given in multiple sections. There is no need to test all sections in a subject on the same day. Example: Mathematics has three sections. All math sections can be given in one day, or sections can be given on multiple days.	•	•	•
3.	Administer the test at a time most beneficial to the student.	•	•	•
4.	Provide extra time for any timed test.* *** Each section of every test has a specific time allotment to complete the test. ELL students and students with disabilities/504 may be provided extra time beyond the time allotted. Example: The time allotment for a section of the test is one hour. Time may be extended for as long as the student needs to complete this section as long as this section is completed within the day it has been started.		•	•
5.	Allow more breaks that result in extra time for any timed test.* *** ELL students and students with disabilities/504 may have extended breaks beyond the number of breaks provided during the administration of the test.		•	•

Explanations of asterisks (from Assessment Accommodations for ELL students and students with disabilities/504)

*** Denotes a Category 2 accommodation, which is an accommodation that may possibly affect the validity of the assessment.**

**** Denotes an accommodation involving the use of highlighters. Highlighters may only be used by ELL students and students with disabilities.** Please note: Carefully supervise the use of highlighters because they may cause smudging of pencil marks and bubbles and, therefore, could affect reliability of scoring. If highlighters are used, the following guidelines must be followed:

Guidelines for Highlighters (CTB/McGraw-Hill):

1. Do not ☐
The highlighters cause these black inks to blur and bleed.
2. Do not allow the highlighting of pencil marks of any kind, whether bubbles or handwriting. The highlighters cause pencil marks to blur and bleed.
3. Use only a highlighter from the following list, which were tested and found to have minimal problems:
Avery Hi-Liter
Avery Hi-Liter, thin-tipped
Bic Brite-Liner
Sanford Major Accent
Sanford Pocket Accent, thin-tipped

***** Denotes an accommodation for which test security should be considered.**

Test security must be maintained during all breaks within a testing session. To lessen the risk of a security breach occurring during these breaks, students requiring the use of restroom facilities must be escorted by either the proctor or a test examiner. In addition, students must not be allowed to use any form of wireless communication during these breaks.
